

HARIS ENTERPRISES

www.hesecurity.com.pk

EXECUTIVE SUMMARY

Haris Enterprises is a leading name in security and risk management services across Pakistan. Registered with ISO 18788:2015 to maintain quality, we provide customized security solutions to our clients with an emphasis on innovation and technology.

Established in 1998, Haris Enterprises is headquartered in Islamabad with offices in Lahore, Peshawar, Karachi and Quetta with a service network that covers all provinces and the Federal Capital. We are registered as a private limited company, with the Security and Exchange Commission of Pakistan, Islamabad. We operate under licenses issued by the Ministry of Interior (Interior Division), Government of Pakistan, Chief Commissioner of Islamabad Capital Territory, Provincial Governments of Punjab, KPK, Sindh, Balochistan, Gilgit Baltistan and Government of Azad Kashmir.

MISSION

Provide secure solutions that ensure local growth and sets industry benchmarks for service excellence.

VISION

To provide distinct services in security and risk management solutions, through our understanding of the local landscape with excellence, innovation and dedication - as key drivers of our core business philosophy to provide exceptional client services.

TEAMS**

**SECURITY
EQUIPMENT**

CLOSE PROTECTION TEAMS

Through our close protection officers, we offer bodyguard services, protective services, executive protection and VIP security services. The latter has proven to be invaluable when handling dignitaries and high-profile officials. Trained to provide the highest level of security while maintaining a low profile, our close protection officers prove invaluable to clients for their own protection as well as for the security of their loved ones, and business associates when venturing into risk-prone areas or situations.

MOBILE PROTECTION TEAMS

To help our clients move from one place to the other safely, we provide Mobile Protection Teams. This service can be combined with executive transportation and secure escort services to improve protection between destinations for key assets.

We have Mobile Roving Teams that comprise of fully trained security staff and drivers equipped with the firearms & telecommunications equipment that improve both their time and ability to respond.

ARMORED TRANSPORTATION

We are also capable of providing bullet proof vehicles to our clients. Provided with a driver and an armed security guard, this service is provided regardless of the distance covered by the client.

ACCESS CONTROL TEAMS

At Haris, we have separated the Access Control Teams from the guarding services. These team are especially trained to manage a well-orchestrated and secure working environment to prevent unauthorized entry of men and material. These teams can handle conflict situation, retrain individual and ensure access control protocols as per mutually developed SOP.

ARMED/UNARMED GUARDS

Equipped with the best of the weapons available, these guards belonged to the fighting arms of the military, which means they come to us with ample experience of weapon handling and training. On top of that, they are given rigorous training in weapon handling and fire practice.

INNER PERIMETER RESPONSE TEAMS

With a vast pool of ex-Special Services Group individuals, we offer in-house response teams to clients at highly sensitive installations. These guards are made eligible to join the team after clearing high levels of firing tests and are equipped with both short and long arm weapons.

QUICK RESPONSE TEAMS

Our entire guard force is backed up with response teams in every city where we are operating. This team is equipped and trained as first responders and are capable of reaching places within shortest possible time spans.

SECURITY EQUIPMENT

At H.E. we use the best of security equipment, which includes:

- Panic Alarm System
- Intrusion Alarm System
- CCTV
- Vehicle Tracking System
- Electronic Attendance System
- Guard Electronic Monitoring System (GEMS).
- Electronic Attendance System
- Metal Detectors/Gates
- Guard Tour System
- Personal Tracking System

WHAT SETS US APART?

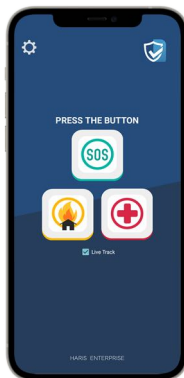

SECURITY OPERATIONS CENTER

H.E. has a 24/7 Security Operations Center that serves as the nerve center of our operations. It keeps us updated on local and international events.

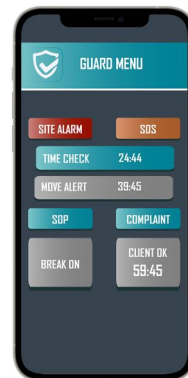

RESPONSE TEAMS

The control room works in close liaison with our Response Teams to make sure we are the first to respond on location during an emergency.

INDIGENOUSLY DEVELOPED APPS

We have developed a whole range of in-house apps that makes running our operations much smoother, such as the SOS app that is available to our clients and allows us to be informed of and respond to an emergency on the press of a button.

CORPORATE COMPLIANCE

We at H,E, ensure that we abide by all local / international laws governing us as a business entity including but not limited to the Federal Code of Conduct for Private Security, Provincial Code of Conduct, Code of Conduct of All Pakistan Security Agency Association (APSAA), Labor laws of Pakistan, ILO laws, Provident Fund, Salaries and Wages Act, EOBI as well as Insurance.

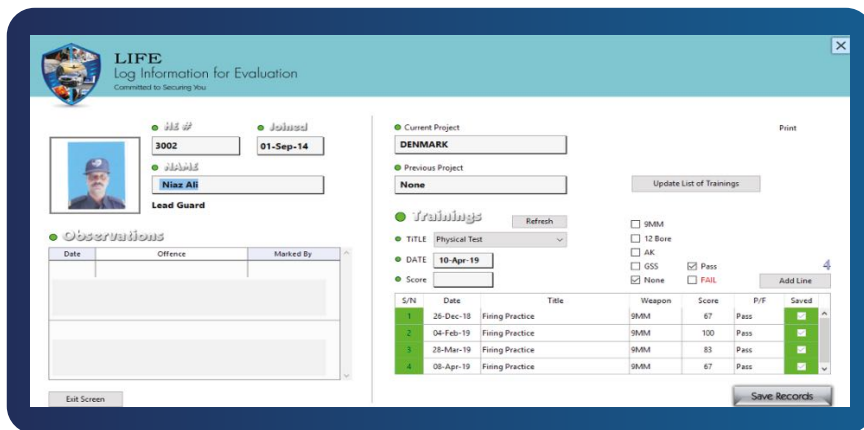

QUALITY CONTROL

H.E has adopted quality control as part of our daily operations. We accomplish this by continually providing people of high integrity, unparalleled service and leading-edge technology to our clients. We continually revisit our overall approach to better serve our clients by identifying problems and implementing corrective measures.

TRAINING

In order to impart effective training to our work force, we, at Haris, ensure that we remain abreast with latest technological as well as environmental changes happening around on a regular basis.

Record of all training activities imparted / conducted are logged in an in-house developed software (LIFE) with a view to evaluate our work force on a continuous basis.

Some methods used for training include:

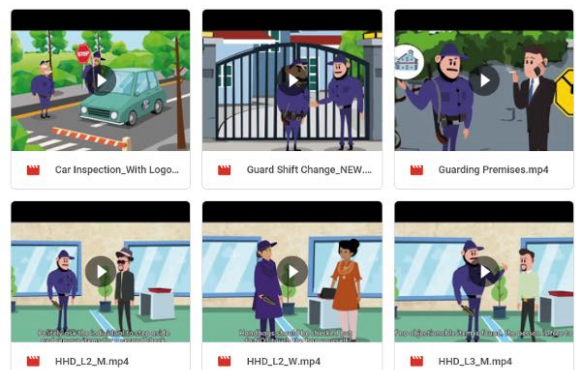

Simulators

- Laser simulator
- Driving simulator

Videos

Haris Enterprises' guard force is also trained with the help of animated films made in-house, to make instructions easier to understand.
